

# Engagement Policy Implementation Statement for the Year Ended 5 April 2023

## William Grant & Sons Limited 1978 Pension Scheme (“the Scheme”)

### 1. INTRODUCTION

This Engagement Policy Implementation Statement (the Statement) sets out the Trustees’ assessment of how, and the extent to which, they have followed their engagement policy and their policy with regard to the exercise of rights (including voting rights) attaching to the Scheme’s investments during the one-year period to 5 April 2023 (the “Scheme Year”). The Trustees’ policies are set out in their Statement of Investment Principles (“SIP”) dated December 2022. A copy of the Trustees’ SIP is available at the [William Grant & Sons 1978 website](#).

This Statement has been produced in accordance with the *Occupational Pension Schemes (Investment and Disclosure) (Amendment and Modification) Regulations 2018* and the *Occupational Pension Schemes (Investment and Disclosure) (Amendment) Regulations 2019* along with guidance published by the Pensions Regulator.

The Trustees invest the assets of the Scheme in a fiduciary arrangement with Mercer Limited (“Mercer”). Under this arrangement Mercer are appointed as a discretionary investment manager and day-to-day management of the Scheme’s assets is by investment in a range of specialist pooled funds (the “Mercer Funds”). Management of the assets of each Mercer Fund is undertaken by a Mercer affiliate, Mercer Global Investments Europe Limited (“MGIE”).

MGIE are responsible for the appointment and monitoring of suitably diversified portfolio of specialist third party investment managers for each Mercer Fund’s assets.

The publicly available [Sustainability Policy](#) sets out how Mercer addresses sustainability risks and opportunities and considers Environmental, Social and Corporate Governance (“ESG”) factors in decision making across the investment process. The [Stewardship Policy](#) provides more detail on Mercer’s beliefs and implementation on stewardship specifically. Under these arrangements, the Trustees accept that they do not have the ability to directly determine the engagement or voting policies or arrangements of the managers of the Mercer Funds. However, the Trustees have reviewed these policies and note an awareness of engagement topics that are important to the Scheme and integrating the Trustees views on specific themes, where possible, is an important part of Mercer’s Fiduciary duty. Mercer’s Client Engagement Survey aims to facilitate this by assessing the level of alignment between Mercer’s engagement priority areas and those of the Trustees, while highlighting additional areas of focus, which are important to the Trustees. The Trustees review regular reports from Mercer with regard to the engagement and voting undertaken on their behalf in order to consider whether the policies are being properly implemented.

Section 2 of this Statement sets out the Trustees’ engagement policy and assesses the extent to which it has been followed over the Scheme Year.

Section 3 sets out the Trustees’ policy with regard to the exercising of rights (including voting rights) attaching to the Scheme’s investments and considers how, and the extent to which, this policy has been followed during the Scheme Year. This Section also provides detail on voting activity undertaken by the Scheme’s third party investment managers during the Scheme Year.

Taking the analysis included in Sections 2 to 3 together, it is the Trustees' belief that their policies with regard to engagement and the exercise of rights attaching to investments has been successfully followed during the Scheme Year.

## 2. TRUSTEES' POLICY ON ENVIRONMENTAL, SOCIAL, AND GOVERNANCE (ESG) ISSUES, INCLUDING CLIMATE CHANGE

### Policy Summary

Mercer and the Trustees believe stewardship plays an important role in managing sustainability risks and other ESG factors, and helps the realisation of long-term value by providing investors with an opportunity to enhance the value of companies and markets consistent with long-term investor timeframes. Consequently, an approach that integrates effective stewardship is in the best interests of the Scheme. The Trustees also recognise that long-term sustainability issues, particularly climate change, present risks and opportunities, including non-financial performance that require the Trustees' explicit consideration.

It is the Trustees' policy that the third party investment managers appointed by Mercer, via Mercer Global Investments Europe, report in line with established best practice such as the UK Stewardship Code 2021, to which Mercer is a signatory, including public disclosure of compliance via an external website, when managing the Scheme's assets. Further, in appointing the third party asset managers, the Trustees expect MGIE to select managers where it believes the managers will engage directly with issuers in order to improve their financial and non-financial performances over the medium to long term. To monitor the third party investment managers' compliance with this expectation, the Trustees consider regular reports from Mercer that include an assessment of each third party manager's engagement activity.

Should the Trustees consider that Mercer, MGIE or the third party asset managers, have failed to align their own engagement policies with those of the Trustees, the Trustees will notify Mercer and consider disinvesting some or all of the assets held in the Mercer Funds and/or seek to renegotiate commercial terms with Mercer.

### How the Policy has been implemented over the Scheme Year

The following work was undertaken during the year relating to the Trustees' policy on ESG factors, stewardship and climate change.

<b>Policy Updates</b>	<b>Climate Change Reporting and Carbon Foot-printing</b>	<b>ESG Rating Review</b>
The Trustees consider how ESG, climate change and stewardship is integrated within Mercer's, and MGIE's, investment processes and those of the underlying asset managers in the monitoring process. Mercer, and MGIE, provide reporting to the Trustees on a regular basis.	Mercer and the Trustees believe climate change poses a systemic risk and recognise that limiting global average temperature increases this century to "well below two degrees Celsius", as per the 2015 Paris Agreement, is aligned with the best economic outcome for long-term diversified investors. Mercer supports this end goal and is	Where available, ESG ratings assigned by Mercer are included in the investment performance reports produced by Mercer on a quarterly basis and reviewed by the Trustees. ESG ratings are reviewed by MGIE during quarterly monitoring processes, with a more comprehensive review performed annually - which seeks evidence of positive momentum on ESG integration and

---

The Mercer Sustainability Policy is reviewed regularly. In March 2021 there was an update in relation to the Sustainable Finance Disclosure Regulation (SFDR) implementation. In August 2022 the policy update reflected enhancements to the approach to climate change modelling and transition modelling, additional detail on how the policy is implemented, monitored and governed and, as part of the commitment to promote diversity, finalising MGIE's signatory status to the UK chapter of the 30% Club.

In line with the requirements of the EU Shareholder Rights Directive II, Mercer have implemented a standalone Stewardship Policy to specifically address the requirements of the directive. This Policy was also updated in August 2022 to reflect enhancements made to Mercer's stewardship approach including an introduction of Engagement Dashboards and Trackers, an enhanced UN Global Compact engagement and escalation process and a Client engagement survey.

**UN Principles of Responsible Investing scores for 2021 (based on 2020 activity) were issued over Q3 2022. Mercer were awarded top marks for over-the-arching Investment and Stewardship Policy section, underpinned by strong individual asset class results.**

committed to achieving net-zero absolute carbon emissions by 2050 for the multi-asset growth fund used by the Scheme. To achieve this, Mercer plans to reduce portfolio relative carbon emissions by at least 45% from 2019 baseline levels by 2030. This decision was supported by insights gained from Mercer's Investing in a Time of Climate Change (2015 and 2019) reports, Mercer's Analytics for Climate Transition ("ACT") tool and advice framework, and through undertaking climate scenario analysis and stress testing modelling.

Mercer's approach to managing climate change risks is consistent with the framework recommended by the Financial Stability Board's Task Force on Climate related Financial Disclosures (TCFD), including the [Mercer Investment Solutions Europe - Investment Approach to Climate Change 2022 Status Report](#). As at 31 December 2022 Mercer are on track to reach our long-term net zero portfolio carbon emissions target. There has been a notable 16% reduction over the 3 years since 2019 baseline levels, resulting in the 45% baseline-relative reduction by 2030 being within range.

compares the Mercer funds overall ESG rating with the appropriate universe of strategies in Mercer's Global Investment Manager Database ("GIMD"). Engagements are prioritised with managers where their strategy's ESG rating is behind that of their peer universe.

As at 31 December 2021, in the Annual ESG review provided by Mercer, the Trustees noted that 89% of Mercer Funds have an ESG rating equal to or above their asset class universe and 64% have seen an improved ESG rating over the past 4 years. Due to the nature of certain strategies, they do not have an ESG rating (i.e. are N rated) and are therefore excluded from this review. Please see Mercer's Guide to ESG Ratings for more information <https://www.mercer.com/our-thinking/mercer-esg-ratings.html>

---

### Approach to Exclusions

As an overarching principle, Mercer and MGIE prefer an approach of positive engagement rather than negative divestment. However Mercer and MGIE recognises that there are a number of cases in which investors deem it unacceptable to profit from certain areas and therefore exclusions will be appropriate.

---

### Sustainability-themed investments

An allocation to Sustainable Equities is included within the Schemes portfolio of Growth assets, with the strategic allocation to Sustainable Equities now accounting for c.3.5% of the Growth Portfolio.

A detailed standalone report sustainability monitoring report is produced for the Passive

---

### Diversity

From 31 December 2020, gender diversity statistics have also been included in the quarterly reporting for the Mercer equity funds and this is being built into a broader Mercer Investment Solutions International policy on Diversity, Equity and Inclusion, sitting alongside Mercer's established Diversity Charter.

---

Controversial weapons are excluded from active equity and fixed income funds, and passive equity funds. In addition tobacco companies (based on revenue) are excluded from active equity and fixed income funds. The Mercer sustainability-themed funds have additional exclusions, for example covering gambling, alcohol, adult entertainment and fossil fuels.

Mercer expanded exclusions to further promote environmental and social characteristics across the majority of the multi-client building block funds over the second half of 2022, in line with EU SFDR Article 8 classification, as well as aligning Mercer's existing active and passive exclusions across their fund range.

In addition, Mercer and MGIE monitors for high-severity breaches of the UN Global Compact ("UNGC") Principles that relate to human rights, labour, environmental and corruption issues.

Sustainable Global Equity fund on a semi-annual basis, including a more granular breakdown of the fund against ESG metrics, for example the UN Sustainability Development Goals.

The actively managed Mercer Sustainable Global Equity Fund includes an impact investing strategy employing fundamental analysis to target companies that aim to achieve a positive Environmental and Social Impact. The strategy is diversified across multiple themes including health and sanitation, affordable housing, education and cyber security

Mercer consider broader forms of diversity in decision-making, but currently report on gender diversity. As at 31 December 2022, 36% of the Key Decision Makers (KDM's) within Mercer IS team are non-male, and Mercer's long term target is 50%.

In Q3 2022 MGIE was confirmed as a signatory of the UK Chapter of the 30% Club.

---

### **3. TRUSTEES' POLICY ON EXERCISE OF RIGHTS (INCLUDING VOTING RIGHTS) ATTACHING TO FUND INVESTMENTS**

#### **Policy**

The Trustees' policy is to delegate responsibility for the exercising of rights (including voting rights) attaching to the Scheme's investments to the third party investment managers appointed by Mercer on the Trustees' behalf.

This is because any voting rights that do apply with respect to the underlying investments attached to the Mercer Funds are ultimately delegated to the third party investment managers appointed by MGIE. In delegating these rights, MGIE accepts that managers are typically best placed to exercise voting rights and prioritise particular engagement topics by security, given they are expected to have detailed knowledge of both the governance and the operations of the companies and issuers they invest in. However, Mercer has a pivotal role in monitoring their stewardship activities and promoting more effective stewardship practices, including ensuring attention is given to more strategic themes and topics. As such, proxy voting responsibility is given to listed equity investment managers with an expectation that all shares are to be voted in a timely manner and a manner deemed most likely to protect and enhance long-term value. Mercer and MGIE carefully evaluates each sub-investment manager's capability in ESG engagement and proxy voting, as part of the selection process to ensure it is representing Mercer's commitment to good governance, integration of sustainability considerations . Managers are

expected to take account of current best practice such as the UK Stewardship Code 2020, to which Mercer is a signatory. As such the Trustees do not use the direct services of a proxy voter.

Voting: As part of the monitoring of managers' approaches to voting, MGIE assesses how managers are voting against management and seeks to obtain the rationale behind voting activities, particularly in cases where split votes may occur (where managers vote in different ways for the same proposal). MGIE portfolio managers will use these results to inform their engagements with managers on their voting activities.

Set out below is a summary of voting activity for the year to 31 March 2023 for a range of Mercer Funds that the Scheme's assets are invested in. This may include information in relation to funds that the Scheme's assets were no longer invested in at the year end. The statistics set out in the table below are drawn from the Glass Lewis voting system (via Mercer's custodian). Typically, votes exercised against management can indicate a thoughtful and active approach. This is particularly visible where votes have been exercised to escalate engagement objectives. The expectation is for all shares to be voted.

Fund Name	Total Proposals		Vote Decision					For/Against Mgmt	
	Eligible Proposals	Proposals Voted On	For	Against	Abstain	No Action	Other	For	Against
Mercer Multi-Asset Credit Fund <sup>(1)</sup>	11	11	91%	9%	0%	0%	0%	91%	9%
Mercer Passive Emerging Markets Equity Fund	26,187	25,405	80%	17%	3%	0%	0%	82%	18%
Mercer Passive Global REITS UCITS CCF	3,117	2,982	79%	16%	0%	4%	0%	79%	21%
Mercer Passive Global Small Cap Equity UCITS CCF	47,303	45,904	84%	13%	0%	3%	1%	85%	15%
Mercer Passive Low Volatility Equity UCITS CCF	3,852	3,766	84%	14%	0%	2%	0%	83%	17%
Mercer Passive Sustainable Global Equity UCITS CCF	16,150	15,689	78%	19%	0%	2%	0%	78%	22%
MGI Eurozone Equity Fund	4,721	4,610	85%	12%	2%	0%	0%	86%	14%
MGI UK Equity Fund	1,082	1,081	99%	1%	0%	0%	0%	99%	1%
Mercer China Equity Fund	547	544	94%	6%	1%	0%	0%	94%	6%

<sup>(1)</sup> Voting Activity figures for the Mercer Multi-Asset Credit fund relate to a small number of equity holdings within the fund's underlying segregated mandates. Please note this does not include voting activity from any underlying pooled strategies within the fund over the period.

- "Eligible Proposals" reflect all proposals of which managers were eligible to vote on over the period
- "Proposals Voted On" reflect the proposals managers have voted on over the period (including votes For and Against, and any frequency votes encompassed in the "Other" category)
- "No Action" reflects instances where managers have not actioned a vote. MGIE may follow up with managers to understand the reasoning behind these decisions, and to assess the systems managers have in place to ensure voting rights are being used meaningfully
- "Other" refers to proposals in which the decision is frequency related (e.g. 1 year or 3 year votes regarding the frequency of future say-on-pay).

**Significant Votes:** Mercer and the Trustees have based the definition of significant votes on its Beliefs, Materiality and Impact (BMI) Framework. Reported below are the most significant proposals over the period. Please note that significant proposals are determined using the following criteria:

1. The proposal topic relates to an Engagement Priority (climate change, human/labour rights, and diversity). This is classified in the “Proposal Description” column below, referenced as Environmental, Social, and Governance respectively.
2. The most significant proposals reported below relate to the three companies with the largest weight in each fund (relative to other companies in the full list of significant proposals).

## Most significant votes

Mercer Fund	Proposal Description	Company	Holding Weight in Mercer Fund (%)	Meeting Date	Manager Vote Decision	Vote Outcome (% Shareholder Support)
<b>Mercer Passive Global REITS UCITS CCF</b>	Environmental: Approval of Climate Change Ambitions and Targets	Carmila	<1%	12-May-22	For	98%
	Environmental: Approval of Climate Transition and Biodiversity Preservation	Icade	<1%	22-Apr-22	For	99%
